Tiny Tot Lessons

Parent & Baby (Ages 3 months to 2 years)
This class is designed to help parents introduce their tot to the pool. An instructor is in the water to teach you how to help your child accomplish a variety of skills.

Tot Swim (Ages 2 to 5 years)
This class introduces your child to basic swimming skills. Parents do not accompany tots in the water but may watch from the side of the pool.

Advanced Tots (Ages 2 to 5 years)
This program is designed for children who have advanced quickly and can swim on their own but are under 5 years of age. Once a child is old enough to move into the main pool they will be introduced to the white, purple and red levels based on their ability.

Children's Group Lessons Ages 5+
Group Lessons are our regular swimming lessons. The student to instructor ratio is 1:5 for beginner or 1:6 for higher levels. These classes are 40 minutes and designed to allow children to progress at their own rate.

Children's Low Ratio Lessons Ages 5+
The Works Low Ratio Swimming Lessons are designed for those who require or desire more attention than regular group lessons. These 40 minute classes have an instructor to student ratio of 1:3. Register early as space is limited.

Private & Family Private Lessons

The Works offers Private and Family Private swimming lessons. Each class offers one on one instruction and personal attention. The 30 minute class of private instruction is ideal for beginners, individuals who want to brush up their swimming skills or those having difficulty with a particular stroke or technique.

Family Private lessons are available for 2 family members or friends with one instructor.

For a family private lesson, both participants must be at the same level or within one level of each other.

Adult Lessons

### WHY IS INDOOR FOOTWEAR IMPORTANT?

To protect and maintain our Field House facilities such as the indoor track, green courts and hardwood floors it is very important that all users wear non-marking indoor footwear. Rocks, dirt, sand and salt can become trapped in the soles of outdoor shoes and this causes damage to the specialized floors. Outdoor footwear may be wet and this can cause our floors to be slippery and cause water damage to the hardwood floor.  

**To prolong the life of the floors, non-marking indoor footwear is mandatory while using the Field House facilities.**
